Summary

Software Engineer and Flutter Mobile Developer with experience building high-quality, scalable mobile applications using Flutter and modern software engineering practices. Strong background in Clean Architecture, state management, and RESTful API integration. Proven ability to deliver clean, maintainable code and collaborate effectively within cross-functional teams. Passionate about creating reliable, user-focused applications and seeking mobile development opportunities in international markets.

Experience

Flutter Mobile Developer | Rand Company

Nov 2024 – Present

Flutter Mobile Developer | Frontend Web Developer (Vue.js)

2023 – Present

- Developed and maintained production-ready **mobile applications using Flutter** and **web dashboards using Vue.js**.
 - Built clean, responsive, and user-focused interfaces for both mobile and web platforms.
 - Integrated RESTful APIs, handled authentication, real-time updates, and error management.
 - Applied **Clean Architecture** principles and **BLoC** state management to ensure scalability and maintainability.
 - Collaborated with backend developers and designers to deliver full-featured systems.
-

Selected Projects & Contributions

TruckLink — Transportation Management Platform

- Developed a **Vue.js dashboard** for factories, transport companies, and administrators.
 - Built a **Flutter Driver Mobile Application** with real-time shipment tracking.
 - Integrated **GPS location tracking** to monitor driver movement and shipment status.
 - Implemented **WebSocket-based real-time updates** for live tracking and status changes.
 - Developed complex data tables, filters, and role-based views for managing requests and offers.
 - Ensured smooth synchronization between mobile apps, dashboards, and backend services.
-

E-School — School Management System

- Developed **Flutter mobile applications** for **students and teachers**.
 - Built a **Vue.js admin dashboard** for managing schools, users, courses, and school's operations.
 - Implemented role-based access and feature-specific workflows.
 - Focused on usability and stability for daily educational use.
-

Doremi — Media Streaming Mobile Application

- Developed a Flutter mobile application supporting audio and video streaming.
 - Implemented background playback and handled app lifecycle states.
 - Integrated advertisement logic with seamless resume of media playback.
 - Optimized performance and state management for smooth user experience.
-

Additional Projects

- **Jobly:** Job search application connecting employers and job seekers.
 - **Imaniyat:** Islamic mobile application including Quran, prayer times, zakat calculator, qibla compass, and digital tasbih with custom animations.
 - **The Consultant:** Mobile application for booking professional consulting services.
 - **Atmata:** Quiz application for student self-assessment.
 - **Bookly:** Book browsing and discovery application.
-

Education

Damascus University

Bachelor's Degree in Information Technology Engineering

Specialization: **Software Engineering**

Graduated: **2025** / GPA: **85%**

Technical Stack & Skills

Mobile Development

- Flutter, Dart
- State Management: BLoC, GetX
- Responsive layouts (Mobile, Web, Desktop)

Frontend Web Development

- Vue.js, Vite
- HTML, CSS, JavaScript
- Admin Dashboards & Data-Driven Interfaces

UI/UX & Design

- Figma (UI design, wireframes, prototyping)
- Mobile-first design principles
- Translating designs into pixel-accurate implementations

Architecture & Software Engineering

- Clean Architecture
- MVVM, MVC
- OOP
- SOLID Principles

Backend & Real-Time Communication

- RESTful APIs
- WebSockets (real-time updates)
- GPS & Location Services integration

Databases & Cloud

- Firebase/Supabase
- MySQL/Postgres

Tools & Platforms

- Git, GitHub, GitLab
- Jira/ClickUp
- Linux

Other Skills

- Problem Solving & Algorithms (DCPC Finalist)
- Debugging & Performance Optimization
- Agile / Scrum Methodologies
- Requirements Engineering
- Software Development Life Cycle (SDLC)
- Testing (White Box / Black Box)
- App Deployment (Google Play Store, App Store, versioning, release management)
